# COMPOST & RECYCLING

At Compost and Recycling it is our pleasure and responsibility to make sure WEF is approaching our goal of having a zero waste output. This means we are putting our best efforts to recycle or compost anything discarded at the festival. You can help us achieve this goal by putting your “waste” into designated bins around the quad. Our vendors are aware

of our expectations and will do their best to provide you with only compostable, recyclable, or reusable materials. If you would like to see us in action, help us out, or just want to learn more about us we will be located between Wellman Hall and Wickson Hall off of the North-West corner of the quad.

## WORKSHOP DETAILS

### EXPERIENTIAL SPACE

#### FRI 1:30-6:30 DOME DECORATION

Come by and help create experiential space. Learn about how to construct a geodesic dome and add your own personal flavor to the space and its decorations. Bring any trinkets, goodies, or tapestries you'd like the space to incorporate or represent important ideas to you – or just bring yourself!

#### FRI 3:30-5:00 PAINTING WITH YOUR BODY

Why use paint brushes when you've got fingers and toes and knees and more! Come paint a large canvas that will become the backdrop for the next 2 days of the festival – with your body!

#### SAT 10:00-10:30 MEDITATION

Begin the festival and start your morning with a sitting meditation.

#### SAT 10:30-11:30 PARTNER YOGA

Partner yoga is exploring movement with help from our community to go deeper into the practice and feel the connection we all share. No yoga experience or a partner is necessary. All you need is an interest in having fun and a playful spirit.

#### SAT 11:30-1:00 TAPPING INTO YOUR SOUL'S PURPOSE

Learn about Meridian Tapping aka “EFT” (Emotional Freedom Technique), gain clarity around your purpose and shift towards a career that is in alignment with your soul's true calling. Meridian Tapping is a clinically proven method that clears energy blockages stored in your body caused by trauma or negative experiences. By literally tapping on meridian points (as used in acupuncture) in conjunction with affirmations, you will instantly release stored blockages, fears, old thought patterns, and limiting beliefs so you can realign yourself with your true passions.

#### SAT 1:00-3:00 CRISIS OF THE COMMONS:BEEHIVE DESIGN

Made up of activists, artists, and educators, the Beehive focuses on creating intricate graphics based on differing regions, depicting real-life stories of environmental and political struggles in metaphors of flora and fauna. Turning the lens to California, this workshop seeks to examine the current dysfunctions and dynamics regarding the current water crisis using the existing Mesoamerica Resiste poster. Join the Bees in an interactive workshop exercise to form facts with visual metaphors as we unravel the many layers the state faces- from corporate privatization and drought, to historic systems of oppression. Be a part of weaving California's story in the development of a future graphic poster that can serve simultaneous as an educational and organizing tool!

#### SAT 3:00-4:00 NATURAL DYES

Use the pigments from plants to create a collective art piece together through this natural tie-dyeing technique.

#### SAT 4:00-4:45 SOWING SEED

Come build your own decomposable pots and sow seeds for the spring and summer season!

#### SAT 5:00-6:00 DECOLONIZING QUEERNESS

#### SUN 12:15-2:00 WILD FOODS WALK

Local farmer, author and wild food advocate Wolfgang Rougle will take you on a walk to explore the many wild foods around us and their historical uses by early settlers and indigenous peoples.

#### SUN 2:15-5:00 WOMEN'S SACRED ANATOMY

In this deeply restorative workshop we will focus on women's sacred anatomy with the prime focus being on the root - soulful healing, anatomy and self-care for the uterus and pelvic palace. Honor your first home - your mother's womb, as we journey through our female lineage in meditation, learn holistic healing techniques, and develop a deeper understanding of our sacred womb wisdom - the root of our being, our creative center, the well of our feminine vitality. Gentle yoga and movement will be included.

#### SAT 4:00-5:00 COMPASSIONATE COMMUNICATION

Learn and practice communicating in a way that transcends debating whose right and whose wrong. Compassionate Communication really gives you the tools and skills to be vulnerable, authentic, and compassionate with yourself and with others.

## Hoop Space

Hoop Space welcomes everyone and anyone to come play with beautiful hoops of all sizes. Discover new ways of engaging with the sacred circle to connect to the earth, the cosmos, and to align with your galactic center in this whirling wonderland. Feel the benefits of spinal alignment as you strengthen and connect with your core to create a foundation from which to spiral beyond perceived limitations. Feel free to experiment on your own, or ask one of our amazing volunteers to show you some tricks! All levels of experience are encouraged to participate in this magical exploration. This year we have an incredible lineup of hoop workshops that I highly encourage you to attend! (See the schedule for times!)

## Craft Booth

Our goal this year is to help make direct connections between the people who USE things and the people who MAKE them. We are going back to our WEF roots by offering only hand-made crafts and art -- sold by the families that made them -- at this festival. Whether in food or in clothes, we think it is important to connect within one's community. As you walk around and admire beautifully crafted things, we encourage you to talk with their makers. Often the life histories of these folks embody the values WEF has been promoting over the years -- peace, self-sufficiency, sustainability, joy, and embracing our natural world. Their stories may be as wonderful as their art. (Crafters are listed in the program and at the Dome.)

## Kids Space

Kids Space is a place for younger festivalgoers to play, learn, and explore with their families. Throughout the festival there will be various workshops, art stations, play areas, and entertainment all designed for kids. We invite you to come and experience the space! We are located northwest of the quad on the Wellman Hall lawn.  
**Please note:** Parents/ Guardians are required to stay with their children for the duration of their stay in the space. Kids Space does not provide daycare supervision during the festival.

## Fire Stage

As the sun sets over the Whole Earth Festival, watch as the Soular Dance stage is taken over by fire spirits and transformed into the Promethean Fire Stage! An exciting lineup of talented fire performers from near and far will dazzle the crowd with their pyrotechnic feats while digital musicians fill the airwaves with sweet beats. Join Promethean Fire on the front lawn of Wellman Hall: Friday and Saturday night of Mother's Day Weekend, from sundown until 10pm at the Whole Earth Festival!!!

“Interactive Transmedia Sculpture Garden, curated by John Natsoulas & featuring seven mosaic artists and sculptures. In the MU Patio north of the Quad.”
